

How to Make a Zine

Out of one sheet of paper!

A zine (short for magazine) is a self-published collection of words, art, articles...anything you want to make!

Zines are a powerful tool. Efficiently and easily spread messages to your community and beyond. Create important preservation stories and send them into the world.

Zines are accessible. As long as you have a sheet of paper, you can create a zine. Once you have a template, make photocopies to share in free libraries, neighborhood businesses, and organizations (with owner permissions), or even just with friends and family.

Get inspired! Check out our webinar on how to create zines with content ideas for telling your own story: go.indowwindows.com/zine-workshop

HOW TO EXAMPLE:
